Our services

We attend you with honesty and empathy and respond to your individual needs. We might dissuade you from operating or we might propose an intermediate step. Good team spirit and informal atmosphere will be beneficial for the results we jointly achieve.

Overview of our services:

Hair

- Hair transplantation (follicular units, strip or follicular unit extraction (FUE))
- Scalp reduction (Dr. Frechet method)

Skin

- Wrinkle treatment with hyaluronic acid (Restylane) or Botulinum toxin (Botox)
- Removal of skin tumors or lesions (birthmarks, sebaceous cyst, lipoma, skin tumor, etc.)
- Scar correction

Lips

- Upper and lower lip wrinkles
- Lip contour
- Lip augmentation

Eyes

- Upper eyelid surgery to treat drooping eyelids
- Lower eyelid surgery to treat puffy bags
- Eyebrow and eyelash hair transplantation

Ears

- Earlobe plastic surgery of stripped ears

Your person to contact:

Dr. med. Beatrice Banholzer

Studies and doctorate in medicine, long-time experience in aesthetic surgery, wide experience and international training in hair transplantation
